Abstracts

This report studies the global Dextranase market status and forecast, categorizes the global Dextranase market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Dextranase is obtained through submerged fermentation with the use of *Bacillus Licheniformis* strains; the enzyme is an endonuclease, loyal acting ?- glucan 1, 3 and 1, 4 glycosidic bonds, produce three - 5 glucose units oligosaccharides and glucose. The product can effectively break down?- glucan in wheat and cereals endosperm cell walls, in the beer brewing used to reduce the viscosity of wort and improve the filtration performance, improve malt dissolution rate, to prevent the beer cloudy, stable quality of beer. Product is pale yellow powder or brown liquid; temperature range in 30 -60 ?, the optimum temperature range in 50 -55 ?; Applicable PH range 4.8-7.5, the optimum PH range 6.0-6.5.

Currently, Dextranase market is saturated; many manufacturers gradually withdraw from this area, currently, Novozymes and Amano take high market share. Dextranase as a single enzyme, the manufacturer's profit margin decreased year by year; however, the businesses of produce food-grade and non-food grade Dextranase, the prices and gross margins vary greatly.

At present, the product promotion for application is not obvious, while in the food and beverage industry, there are many alternatives, so its market competitiveness is not high enough.

Currently, little change in downstream applications, thus limiting the promotion of this product to a certain extent, I believe that in the next few years, with the application of this product gradually extended, will promote the development of the industry to a certain extent.

The global Dextranase market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.
