This report studies the global Diethyl Carbonate (DEC) market status and forecast, categorizes the global Diethyl Carbonate (DEC) market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Diethyl carbonate (DEC) is a carbonate ester with the formula $\text{CO}(\text{OCH}_2\text{CH}_3)_2$. Diethyl carbonate is widely applied in the field of medicine, pesticides, battery, and others. The diethyl carbonate (DEC) industry concentration is high; the manufacturers are distributed in Japan and China, due to the environmental and manufacturing cost factors. There are three manufacturers in Japan, they are UBE Group Kishida Kagaku and Kowa Company. In China, there are less than twenty manufacturers like Chaoyang chemical, Shandong Shida Shenghua, Tongling Jintai Chemical, Shandong flying, Carcol Chemical, Liaoyang Best Group and Lixing Chemical etc., the homogeneity of the products is serious, and the market competition is fierce.

Globally, the diethyl carbonate products are mainly used in electrolyte, pharmaceuticals and pesticides, and synthetic fiber and resin fields etc. China is the largest producer and consumer, and Japan is also a very important producer and consumer in 2014. Europe and USA are the important consumption regions, and they two consume more than 34% of global diethyl carbonate products in 2014.

The diethyl carbonate industry is easily affected by the global economy and the environmental protection policy, the price will fluctuate in the future, due to the risk of global economic volatility.

The global Diethyl Carbonate (DEC) market is valued at 150 million US\$ in 2017 and will reach 180 million US\$ by the end of 2025, growing at a CAGR of 2.4% during 2018-2025.
