## Abstracts

The Global Electric Heating Cable Industry 2016 Market Research Report is a professional and in-depth study on the current state of the Electric Heating Cable market

Electric heating cable is mainly classified into four types: self-regulating, constant wattage, mineral insulated and skin-effect heating cable. And self-regulating heating cable is the most widely used type which takes up about 60% of the global total in 2015.

The global electric heating cable average price is in the decline trend, from 14 \$/MT in 2011 to 12 \$/MT in 2016. The price will be in decline trend if more capacity goes into operation and price of the raw material get reduction in the future. The Electric heating cable sales will reach about 210 million meters in 2016 from 161 million meters in 2011 all around the world, with the CAGR of 4.2%.

Development policies and plans are discussed as well as manufacturing processes and cost structures are also analyzed. This report also states import/export consumption, supply and demand figures, cost, price, revenue and gross margins.

The report then analyzes the global Electric Heating Cable market size (volume and value), and the sales segment market is also discussed by product type, applications and region.

The major Electric Heating Cable market (including USA, Europe, China, Japan, etc.) is analyzed, data including: market size, import and export, sale segment market by product type and applications. Then we forecast the 2017-2022 market size of Electric Heating Cable.
