This report studies the global EPDM Sealing Strip market status and forecast, categorizes the global EPDM Sealing Strip market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

EPDM Sealing Strip is a product used to seal, which takes EPDM as the main raw material and is made through mixing smelting or sulfide. It has good advantages of low compression permanent deformation, good low temperature flexibility, and high tensile strength and so on.

As Chinese overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with EPDM sealing strip industry in short supply on the market in the past few years, more and more companies enter into EPDM sealing strip industry, the current demand for EPDM sealing strip product is relatively low, lack of demand, excess supply.

There is also a certain space of EPDM sealing strip product demand market, but now the alternatives has appeared, and it was usurping the EPDM sealing strip market. The EPDM sealing strip market may be smaller and smaller in the future.

Despite the presence of competition problems, the global recovery trend is clear, investors are still optimistic about this area; the future will still have some new investments enter the field.

Along with the development of Chinese domestic EPDM Sealing Strip, Chinese domestic EPDM Sealing Strip has been very mature and advanced, and the performance distance has been shortening compared with the imported EPDM Sealing Strip.

The global EPDM Sealing Strip market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.
