## Abstracts

External AC-DC Power Supply is a type of external power supply (EPS) that supplies electric energy and designed to convert line voltage ac input into lower voltage dc output.

For the purpose of this report, the worldwide market includes four regions: North America, Europe, China, Korea and the rest of the world (ROW). It is expected to see considerable growth for the external AC-DC power supply unit market over the forecast period in each of these regions with the largest market of 90 percent in Asia.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the External AC-DC Power Supply 4900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the External AC-DC Power Supply 4900 industry.

Based on our recent survey, we have several different scenarios about the External AC-DC Power Supply 4900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ 286.8 million in 2019. The market size of External AC-DC Power Supply 4900 will reach xx in 2026, with

a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global External AC-DC Power Supply market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global External AC-DC Power Supply market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global External AC-DC Power Supply market will be able to gain the upper hand as they use the report as a powerful resource. For this version of the report, the segmental analysis focuses on sales (volume), revenue and forecast by each application segment in terms of sales and revenue and forecast by each type segment in terms of revenue for the period 2015-2026.

### Production and Pricing Analyses

Readers are provided with deeper production analysis, import and export analysis, and pricing analysis for the global External AC-DC Power Supply market. As part of production analysis, the report offers accurate statistics and figures for production capacity, production volume by region, and global production and production by each type segment for the period 2015-2026.

In the pricing analysis section of the report, readers are provided with validated statistics and figures for price by manufacturer and price by region for the period 2015-2020 and price by each type segment for the period 2015-2026. The import and export analysis for the global External AC-DC Power Supply market has been provided based on region.

### Regional and Country-level Analysis

The report offers an exhaustive geographical analysis of the global External AC-DC Power Supply market, covering important regions, viz, North America, Europe, China, Japan and South Korea. It also covers key countries (regions), viz, U.S., Canada, Germany, France, U.K., Italy, Russia, China, Japan, South Korea, India, Australia, Taiwan, Indonesia, Thailand, Malaysia, Philippines, Vietnam, Mexico, Brazil, Turkey, Saudi Arabia, UAE, etc.

The report includes country-wise and region-wise market size for the period 2015-2026. It also includes market size and forecast by each application segment in terms of volume for the period 2015-2026.

## Competition Analysis

In the competitive analysis section of the report, leading as well as prominent players of the global External AC-DC Power Supply market are broadly studied on the basis of key factors. The report offers comprehensive analysis and accurate statistics on sales by the player for the period 2015-2020. It also offers detailed analysis supported by reliable statistics on price and revenue (global level) by player for the period 2015-2020.

On the whole, the report proves to be an effective tool that players can use to gain a competitive edge over their competitors and ensure lasting success in the global External AC-DC Power Supply market. All of the findings, data, and information provided in the report are validated and revalidated with the help of trustworthy sources. The analysts who have authored the report took a unique and industry-best research and analysis approach for an in-depth study of the global External AC-DC Power Supply market.

The following manufacturers are covered in this report:

Delta(Eltek)

Lite-On Technology

Acbel Polytech

Salcomp

Chicony Power

Emerson(Artesyn)

Flextronics

Mean Well

TDK Lambda

Phihong

FSP Group

## External AC-DC Power Supply Breakdown Data by Type

## Contents

### 1 STUDY COVERAGE

- 1.1 External AC-DC Power Supply Product Introduction
- 1.2 Key Market Segments in This Study
- 1.3 Key Manufacturers Covered: Ranking of Global Top External AC-DC Power Supply Manufacturers by Revenue in 2019
- 1.4 Market by Type
  - 1.4.1 Global External AC-DC Power Supply Market Size Growth Rate by Type
  - 1.4.2
