Second, the Europe consumption of flame retardant cable products rises up from 3494 K Meters in 2012 to 4054 K Meters in 2016, with an average annual growth rate of 3.68%. At the same time, the revenue of Europe flame retardant cable sales market has a leap from 10317 K dollars to 11035 K dollars. The reason causes this increase is the growing demand for the flame retardant cable products, which is the result of the growing needs of downstream industry.

Third, the downstream industries of flame retardant cable products are building, power plant and manufacturing factory. In the recent years, with the recovery of global economic, the development of emerging countries and the rising awareness of fire-resistant, the consumption increase of flame retardant cable will be obvious. In the foreseeable future, the flame retardant cable products will show an optimistic upward
