This report studies the global Floating Dock market status and forecast, categorizes the global Floating Dock market size (value & volume) by manufacturers, type, application, and region.

This report focuses on the top manufacturers in North America, Europe, Japan, China, and other regions (India, Southeast Asia, Central & South America, and Middle East & Africa).

A floating dock, floating pier or floating jetty is a platform or ramp supported by pontoons. It is usually joined to the shore with a gangway. The pier is usually held in place by vertical poles referred to as pilings, which are embedded in the seafloor or by anchored cables.

Frequently used in marinas, this type of pier maintains a fixed vertical relationship to watercraft secured to it, independent of tidal, river or lake elevation.

As the second largest market of floating dock in the world, Europe floating dock market is quite important for relative enterprises. Some of the global leading floating dock manufacturers such as Bellingham Marine, Marinetek and Meeco Sullivan are leaders of floating dock in Europe.

Compared with the market growth rate in North America, the market growth rate of floating dock in Europe is relatively slower. But Europe floating dock also has experienced overall increasing trend over the past five years. In 2012, it is estimated that there was about 2.3 Million Sqft of floating dock was sold in Europe, which brought revenue of about 97 Million US\$. And the figure was estimated at 2.6 Million Sqft and 108 Million US\$.

There are mainly four types of floating docks in the Europe market, which include concrete floating docks, wooden floating docks, metal floating docks and plastic floating docks. With different advantage and disadvantage, the types share of these floating docks is stable overall. But according to our investigation, concrete and wooden floating docks are forecasted to have growing market share. And wooden floating docks is forecasted to have small reducing market share, mainly because of the cost and

environment factor.

The global Floating Dock market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.
