Abstracts

This report studies the global Garage Door Opener market status and forecast, categorizes the global Garage Door Opener market size (value & volume) by key players, type, application, and region.

This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

A garage door opener is a motorized device that opens and closes garage doors. Most are controlled by switches on the garage wall, as well as by remote controls carried by the owner.

The global Garage Door Opener industry is characterized by several large international manufactures and many smaller regional and local manufactures. Therefore, market share concentration is low. The two largest operators account for about 31.02% of total industry revenue in 2015, most manufactures operate locally and provide services to a small segment of the population. Nonetheless, market share has increased over the past five years because a number of companies were acquired during the recession. Larger companies are looking to expand their footprint in nearby areas, where they can add value and turn once-struggling operations into profitable ventures. Key market players include Chamberlain Group, Overhead Door, SOMMER Group, LiftLogix, Teckentrup, Marantec, Skylink, Hörmann, CAME, and Dalian Seaside among others. Worldwide, home garages was the largest consumer of Garage Door Opener, which is responsible for about 79.39 percent of Garage Door Opener consumption in 2016. The remaining 20.61 percent was consumed for Underground and Collective Garages.

The global Garage Door Opener market is valued at 1110 million US\$ in 2017 and will reach 1280 million US\$ by the end of 2025, growing at a CAGR of 1.8% during 2018-2025.
