Abstracts

Gluten is the natural protein derived from wheat or wheat flour. In its freshly extracted wet form it is known as gum gluten which when dried yields a cream-to-tan-colored, free-flowing powder of high protein content and bland taste. When re-hydrated, it regains its original characteristics. So unique is the functionality of wheat gluten and so persistent is the structural integrity after cooking, it appears to have no functional competitor.

In 2015, the global gluten market is led by USA. EU is the second-largest region-wise market. At present, the major manufacturers of gluten are concentrated in USA, EU, China and Australia. Manildra Group is the world leader, holding 17.6 % consumption market share in 2015. In different markets, Manildra Group, Henan Tianguan Group, MGP Ingredients and CropEnergies are the market leader. Local businesses account for a large market share.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Gluten 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Gluten 3900 industry.

Based on our recent survey, we have several different scenarios about the Gluten 3900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020

and the revenue will be xx in 2020 from US\$ 1755.1 million in 2019. The market size of Gluten 3900 will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Gluten market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Gluten market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global Gluten market will be able to gain the upper hand as they use the report as a powerful resource.
