Abstracts

Hair loss&growth treatments and products are the products which are the way to treat hair loss and promote hair growth (including hair loss and growth devices, shampoos and conditioners, medicine product like vitamins and supplements).

The hair loss & growth treatments and products industry concentration is low; there are more than 1000 brand in the world, and high-end products mainly from America, European and Japan. Each company has its own market channel: pharmacy, cosmetics stores (like Watson); supermarket; direct to consumers etc. All manufactures in the world are committed to the improvement of product. But the quality of the product is always a problem.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Hair Loss&growth Treatments and Products market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Hair Loss&growth Treatments and Products industry.
