Abstracts

A helmet is a form of protective gear worn to protect the head from injuries. All helmets attempt to protect the user's head by absorbing mechanical energy and protecting against penetration.

In this report, Sports helmets (football, ski, etc.), Bicycle helmets, Motor vehicle helmets and Smart helmets are analyzed.

Smart helmets are combinations of ordinary helmets and high technologies, and they have a variety of intellectual functions according to diverse applications. But the development of smart helmets is still in initial stage, the number of smart helmets is very small compared with ordinary helmets, so in the report, we just give some introduction about the current situation of smart helmets and forecast the development trend of smart helmets market in the next few years.

For industry structure analysis, the Helmets industry is not concentrated. These manufacturers range from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 29.12% of the revenue market. Regionally, Europe is the biggest production value area of valves, also the leader in the whole Helmets industry.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Helmet 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among

the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Helmet 3900 industry.

Based on our recent survey, we have several different scenarios about the Helmet 3900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ 5236.8 million in 2019. The market size of Helmet 3900 will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Helmet market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Helmet market in terms of both revenue and volume.
