## Abstracts

The benefits of aquatic therapy for post-op patients are creating a vast scope of cumulative growth opportunities for stakeholders in the hydrotherapy / aquatic therapy - pool and plunge tank equipment market.

According to QYResearch's new survey, global Hydrotherapy and Aquatic Therapy market is projected to reach US\$ 2508.2 million in 2029, increasing from US\$ 1823 million in 2022, with the CAGR of 4.6% during the period of 2023 to 2029. Influencing issues, such as economy environments, COVID-19 and Russia-Ukraine War, have led to great market fluctuations in the past few years and are considered comprehensively in the whole Hydrotherapy and Aquatic Therapy market research.

The Hydrotherapy and Aquatic Therapy market are primarily driven by the growing recognition of water-based therapies as effective rehabilitative and wellness options. Hydrotherapy's ability to provide low-impact exercise, pain relief, and improved mobility appeals to a wide range of individuals, including athletes, seniors, and individuals with musculoskeletal conditions. The therapeutic benefits of aquatic environments have led to the integration of aquatic therapy in various healthcare settings. However, challenges include the need for specialized facilities and trained personnel, which can limit access to these therapies. Additionally, ensuring proper hygiene and infection control in aquatic settings is essential, presenting an ongoing challenge. The market's success hinges on expanding accessibility through increased awareness, establishing appropriate training programs for healthcare professionals, and maintaining high standards of safety and sanitation.
