Abstracts

Online gambling is any kind of gambling conducted on the internet.

According to QYResearch's new survey, global Internet Gambling & Betting market is projected to reach US\$ 75050 million in 2029, increasing from US\$ 69580 million in 2022, with the CAGR of 1.1% during the period of 2023 to 2029. Influencing issues, such as economy environments, COVID-19 and Russia-Ukraine War, have led to great market fluctuations in the past few years and are considered comprehensively in the whole Internet Gambling & Betting market research.

The Online Gambling & Betting market is being driven by the increasing adoption of smartphones, internet connectivity, and changing consumer preferences for online entertainment and leisure activities. The convenience of accessing various gambling options from the comfort of one's home, along with the availability of a wide range of games and betting options, has led to the rapid growth of this market. Moreover, the legalization and regulation of online gambling in various regions have further boosted the industry's expansion. On the other hand, the market faces challenges related to regulatory frameworks and concerns about responsible gambling and addiction. Striking a balance between ensuring player protection, preventing illegal activities, and providing a seamless and enjoyable user experience remains a significant challenge for both operators and regulators in the online gambling and betting industry.
