This report studies the global Ketone Resin market status and forecast, categorizes the global Ketone Resin market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Ketone resin, also known as polyketone resin, aldehyde-ketone resin or ketone-aldehyde resin, is the condensation of cyclohexanone and formaldehyde containing carbonyl and hydroxyl groups, neutral non-toxic hard resin, its appearance is colorless and light yellow transparent articles, with good solubility, except aliphatic solvent.

Ketone resin can dissolve in almost solvent of inks, pigments, paint industry.

First, ketone resin is a kind of resin which can be used for coating & paints, printing ink and adhesive. With the development of economy, not only coating but also printing ink needs more ketone resin. So, ketone resin has huge market potential in the future.

Second, cyclohexanone and formaldehyde are the main raw materials for the production of ketone resin. With the development of ketone resin, raw materials' manufacturers are also benefited from the ketone resin industry in some extent.

Third, all manufactures in the world are committed to the improvement of product. In recent two years, some Chinese manufactures can almost catch up with the world's leading technology. But they still need to create more types of ketone resins.

Forth, this industry is affected by the economy and policy, so it's important to put an eye to economic indexes and leaders' prefer.

Fifth, the global ketone resin production will increase to 21575 MT in 2015, from 17496 MT in 2010, it is estimated that the global ketone resin demand will develop with an average growth rate of about 3.28% in the coming five years.

Sixth, we tend to believe this industry now is close to mature, and the consumption increasing degree will show a slow decline curve. On product prices, the slow

downward trend in recent years will maintain in the future, as competition intensifies. Besides, prices gap between different brands will go narrowing gradually. Also, there will be fluctuation in gross margin.

The global Ketone Resin market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.
