Abstracts

Kidswear is clothing for children. These colorful clothes are designed for boys, girls and babies with various types like suits, jackets, sweaters, pants, T-shirts, etc. Cotton is the most used material of kidswear due to its characters like sweat-absorbent, soft and comfortable. Wool, fur, linen and silk are also the major fabric materials.
United States is the largest consumer with about 21% share of consumption market. While it also supply about 9% of total production in the global market. The population of children is increasing stably and the demand is increasing correspondingly.
Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Kidswear 3900 market in 2020.
COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.
The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.
This report also analyses the impact of Coronavirus COVID-19 on the Kidswear 3900 industry.
