Abstracts

Laundry Combo Units is a combination in a single cabinet of a washing machine and a clothes dryer. It should not be confused with a 'stackable' combination of a separate washing machine and a separate clothes dryer.

Designed to handle different types of fabric and garments such as clothes, sheets, and towels, washer dryer combos usually have functions such as temperature controls, customizable cycle controls, and ventless systems.

Due to the impact of economic crisis, laundry combo units market developed slowly in recent years. However, with the recovery trend of economy, laundry combo units market will keep growing. Viewed from the supply side, there are many manufacturers in the laundry combo units industry, while from the demand side, the current demand for laundry combo units is growing owing to people's requirement for a comfortable and convenient style of life.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Laundry Combo market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.
