Abstracts

This report studies the global Low Voltage Circuit Breaker market status and forecast, categorizes the global Low Voltage Circuit Breaker market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by overload or short circuit. Its basic function is to detect a fault condition and interrupt current flow. Unlike a fuse, which operates once and then must be replaced, a circuit breaker can be reset (either manually or automatically) to resume normal operation. Circuit breakers are made in varying sizes, from small devices that protect an individual household appliance up to large switchgear designed to protect high voltage circuits feeding an entire city.

Schneider Electric, ABB, Eaton and Siemens captured the top four revenue share spots in the Low Voltage Circuit Breaker market in 2015. Schneider Electric dominated with 13.93 percent revenue share, followed by ABB with 11.39 percent revenue share and Eaton with 5.19 percent revenue share.

In the next five years, the global consumption of Low Voltage Circuit Breaker will show upward tendency further, consumption is expected in 2020 will be 4202.64 (M units). Despite the presence of competition problems, due to the clear global recovery trend, investors are still optimistic about this area, in future still more new investment will enter into the field. Technology and cost are two major problems.

Although sales of Low Voltage Circuit Breaker brought a lot of opportunities, for the new entrants with only advantage in capital without sufficient support in technology and downstream channels, the research group did not recommend taking risk the enter this market.

The global Low Voltage Circuit Breaker market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.
