## Abstracts

Meical Daily Work Clothing is the sanitary clothing worn by surgeons, nurses, physicians and other workers involved in patient care in hospitals.

According to QYResearch's new survey, global Meical Daily Working Uniform market is projected to reach US\$ 8681.3 million in 2029, increasing from US\$ 5960.1 million in 2022, with the CAGR of 5.4% during the period of 2023 to 2029. Influencing issues, such as economy environments, COVID-19 and Russia-Ukraine War, have led to great market fluctuations in the past few years and are considered comprehensively in the whole Meical Daily Working Uniform market research.

According to our research, the global market for medical devices is estimated at US\$ 603 billion in the year 2023, and will be growing at a CAGR of 5% during next six years. The global healthcare spending contributes to occupy 10% of the global GDP and is continuously rising in recent years due to the increasing health needs of the aging population, the growing prevalence of chronic and infectious diseases and the expansion of emerging markets. The medical devices market plays a significant role in the healthcare industry. The market is driven by several factors, including the increasing demand for advanced healthcare services globally, advancements in medical technology, growing geriatric population, rising healthcare expenditure, and increasing awareness about early disease diagnosis and treatment.
