## Abstracts

Meetings, incentives, conferences and exhibitions (MICE) is a type of tourism in which large groups, usually planned well in advance, are brought together for a particular purpose. Recently, there has been an industry trend towards using the term 'meetings industry' to avoid confusion from the acronym. Other industry educators are recommending the use of 'events industry' to be an umbrella term for the vast scope of the meeting and events profession.

Indonesia is rich in tourism resources. The tourism industry is growing into one of Indonesia's pillar industries, and its contribution to GDP is now 3.78%.

Indonesia's tourism competitiveness ranks 70th in nearly 200 countries and regions around the world.

By Application, the Business Field accounts for the largest market share which is about 64.07% in 2017.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the MICE market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the MICE industry.

Based on our recent survey, we have several different scenarios about the MICE YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ xx million in 2019. The market size of MICE will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global MICE market to help players in achieving a strong market position.
