Abstracts

This report studies the global Molybdenum Powder market status and forecast, categorizes the global Molybdenum Powder market size (value & volume) by key players, type, application, and region.

This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

Molybdenum (Mo) is a silvery-white shiny metal, hard but at the same time softer and more flexible than tungsten. It has an excellent resistance to corrosion, good wear and resistance to abrasion, and superior thermal and electrical properties. It is an essential element when it comes to alloys, as it enhances hardenability and persistence of tempered and destroyed steels.

Molybdenum Powder product demand market has a certain space, but basically showing the scarcity of high-end products, low-end products, excess capacity, there is a large market demand for high-end products to seize market share, local enterprises export more low-end products over capacity or molding process basic Materials.

In 2016, Europe is the largest supplier with Production market share of 35.69% in 2016, and Europe is the consumption market of Molybdenum Powder with Consumption market share of 34.75% due to the great demand.

In recent years, the price of Molybdenum Powder is increasing slowly due to the limited resources.

The global Molybdenum Powder market is valued at 670 million US\$ in 2017 and will reach 970 million US\$ by the end of 2025, growing at a CAGR of 4.8% during 2018-2025.
