Abstracts

Property management software helps property managers manage their daily operations. These operations include tenant and lease tracking, accounting, and building maintenance. The software solution provides property managers a centralized platform to view all their properties. It also ensures the progress of other property-related operations such as supervising maintenance tasks and addressing the needs of tenants. Multi-family/HOA Property Management Software is the Property Management Software used in Multi-family and HOA (Homeowners Associations) field.

The leading companies own the advantages on better performance, more abundant product's types, better technical and impeccable after-sales service. Consequently, they take the majority of the market share of high-end market. As competition intensifies, prices gap between different brands will go narrowing. Similarly, there will be fluctuation in gross margin. The industry is expected to remain innovation-led, with frequent acquisitions and strategic alliances adopted as the key strategies by the players to increase their industry presence.
