Abstracts

Musk is a class of aromatic substances commonly used as base notes in perfumery. They include glandular secretions from animals such as the musk deer, numerous plants emitting similar fragrances, and artificial substances with similar odors. Musk was a name originally given to a substance with a penetrating odor obtained from a gland of the male musk deer. The substance has been used as a popular perfume fixative since ancient times and is one of the more expensive animal products in the world.

In 2015, the global synthetic musk market was led by China. Europe was the second-largest region-wise market. At present, the major manufacturers of synthetic musk are concentrated in China and Europe. Yingyang is the world leader, holding 34.46% production market share in 2015. Firmenich and Symrise are also synthetic musk market leader in Europe.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Musk 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Musk 3900 industry.

Based on our recent survey, we have several different scenarios about the Musk 3900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020

and the revenue will be xx in 2020 from US\$ 164.8 million in 2019. The market size of Musk 3900 will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Musk market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Musk market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global Musk market will be able to gain the upper hand as they use the report as a powerful resource.
