Abstracts

Neck pillow is the pillow which is put under the neck, and its main role is to prevent and treat the cervical disease of the neck.

As we all know, the normal cervical spine is rounded in curved. The so-called cervical disease is cervical deformed. Since the neck is a connecting link between the head and body, nerves, blood vessels, etc. through the spinal cord. After the cervical spine straight, body tissue of these caused a certain degree of oppression and prejudice, which triggered a series of diseases of the body. The role of the neck pillow is corrected the cervical.

Regardless of position, the cervical pillow supports your head and neck in a natural position for more comfortable and pastorally correct sleeping. It reduces nerve pressure to alleviate muscle stress and tension for pain relief. As you roll from your back to one side, it again properly supports the neck in a comfortable position on the raised section of the pillow.

Neck Pillow is increasing necessary for people, and market production keeps stable growth.

The development and popular level of all kinds of special Neck Pillow will affect the Neck Pillow industry in future.

For low industry enter barrier, there are a lot of manufacturing enterprises, and the scale of production of the majority company is small. Industrial concentration of the whole industry is generally lower.

Some companies may enjoy the OEM service.

In our opinion, this situation of industrial concentration of the whole industry would not change in short time, and capacity will be decentralized as past, because the technology requirement is too simple.

Imports of United States increase with a stable rate (Export exceed import), mainly because of low materials and labor cost in other regions.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a

public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Neck Pillow 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Neck Pillow 3900 industry.
