This report studies the global Operating Tables market status and forecast, categorizes the global Operating Tables market size (value & volume) by key players, type, application, and region.

This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

An operating table, sometimes called operating room table, is the table on which the patient lies during a surgical operation. It is a crucial equipment in the operating room and is available in a wide array of designs and functionalities based on its applications. An operating table may also be fixed or portable. The primary purpose of an operating table is to give patients the appropriate posture and to keep them in the best position so that surgical procedure can be performed effectively. This surgical equipment is usually found inside the surgery room of a hospital.

Operating tables industry is a little bit fragmented, manufacturers are mostly in the Europe, North America, Japan and China. Among them, Europe and North America output value accounted for more than 78% of the total output value of global operating tables. Getinge is the world leading manufacturer in global operating tables market with the market share of 35.61%.

In the past few years, as the main raw material price was relatively stable, with the increasing in production capacity, expected that the operating tables raw material price will be stable in the short term. However, the improvement of energy, transportation costs, and labor costs, will play a significant role in promoting the cost of operating tables.

There are companies adding new capacities and aims at the cost and quality leadership which shall improve profitability. As the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality.

The average price of operating tables will fall further. The product average price

declined in the past few years due to the technology development, the average price will keep this trend in the few future years due to increasing mature manufacturing technology and cost of raw materials.

The global Operating Tables market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.
