Abstracts

Pet grooming refers to the products which are used to hygienic care and cleaning of a pet, as well as a process by which a pet's physical appearance is enhanced for showing.

A pet grooming service provides clipping and trimming, washing, flea treatment, nail cutting, teeth cleaning and coat conditioning for pet dogs and cats. Some also cut the nails of smaller pets such as rabbits and guinea pigs. Many pet grooming services supply grooming products and tick and flea treatments, and provide microchipping services.

Geographically, North America accounts for the highest share in the global pet grooming products market. Adoption of specialized, advanced, and premium pet grooming products in the U.S. is expected to strengthen the growth of the North America pet grooming products market.
