Abstracts

A pillow is a support for the head used while sleeping on a bed. The pillow is a kind of sleep tool. Generally, the pillow could provide sleep comfort. From the understanding of modern medical research, human spine is a straight line from the front view, but three physiological curves from the side view. In order to protect the normal physiological neck bending protection, pillow should be used when sleeping.

Pillow refers to a support for the head used while sleeping on a bed. It contains cotton pillow, down pillow, memory foam pillow, and others. The pillow industry is characterized by a large number of competitors, none of which are dominant. As raw materials are easily available and downstream market is wide, so manufacturers of pillow are distributed around the world.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Pillow 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Pillow 3900 industry.
