Abstracts

This report studies the global Potassium Metabisulfite market status and forecast, categorizes the global Potassium Metabisulfite market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Potassium Metabisulfite, also called potassium pyrosulfite, is a white to faintly yellowish crystalline powder with a pungent sulfur odour. The main use for the chemical is as an antioxidant or chemical sterilant.

It is a disulfite and is chemically very similar to sodium metabisulfite, with which it is sometimes used interchangeably. It is better than sodium metabisulfite because it does not add sodium to one's diet.

In the world wide, Most of manufactures mainly distribute in Europe India and China. Europe has a long history and unshakable status in this industry, like BASF and Essenco, both have perfect products. As to India, the number of the Potassium Metabisulfite players is far more than other areas.

In China, the manufactures are located in Shandong province, and the price within China almost double compared to the export price because of the fierce competition in foreign markets.

The global Potassium Metabisulfite market is valued at 93 million US\$ in 2017 and will reach 140 million US\$ by the end of 2025, growing at a CAGR of 5.4% during 2018-2025.
