Abstracts

The Global Potassium Sulfate Industry 2016 Market Research Report is a professional and in-depth study on the current state of the Potassium Sulfate industry.

Firstly, the global Potassium Sulfate industry revenue had reached to 3569 Million USD in 2015 and is expected to grow at a CAGR of 6.24% % from 2016 to 2022.

Secondly, the report provides a basic overview of two forms potassium sulfate including powders potassium sulfate and granules potassium sulfate (with 50-52% of K₂O). It also covers the various applications in agriculture (such as Tree Nuts, Vegetables, Fruit, Tobacco and Other) and industrial. In 2015, the market share of agriculture filed was more than 95%, which was the major application of potassium sulfate.

Thirdly, development policies and plans are discussed as well as manufacturing processes and cost structures. The mainly method of manufacturing potassium sulfate are Mannheim Process, MOP & Kieserite Process and Brines (Salt Lakes) Processing. In China, Guotou Xinjiang LuoBuPo Potassium Salt is the largest potassium sulfate manufacturer which produced potassium sulfate by brine. The traditional Mannheim process is the most common process utilized in China. The Mannheim process has higher costs. And HCl (by-product in Mannheim process) has a low market demand in recent years which restricted the production by Mannheim process.

Then, report also states import/export, supply and consumption figures as well as cost, price, revenue and gross margin by regions (United States, Europe, China), and other regions can be added. In addition, the report focuses on global major leading industry players with information such as company profiles, product picture and specification, capacity, production, price, cost, revenue and contact information. Upstream raw

materials, equipment and downstream consumers analysis is also carried out. What's more, the Potassium Sulfate industry development trends and marketing channels are analyzed.

Finally, the feasibility of new investment projects is assessed, and overall research conclusions are offered.

In a word, the report provides major statistics on the state of the industry and is a valuable source of guidance and direction for companies and individuals interested in the market.
