Abstracts

This report studies the global Prescription Sunglasses market status and forecast, categorizes the global Prescription Sunglasses market size (value & volume) by key players, type, application, and region.

This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

Prescription sunglasses are used for the protection of eyes from the harmful ultraviolet radiations which can cause permanent damage to the eyes. The prescription sunglasses are an effective way of limiting exposure of eyes to safe levels along with the dropping glare levels. These sunglasses are available in a wide range of sizes and styles for the people suffering from myopia, hypermetropia, presbyopia, and astigmatism.

Increasing usage and acceptance of eyewear products in general, and prescription eyewear in particular, is a critical driver for eyewear market growth.

Rapidly changing fashion trends along with increasing buying power is anticipated to positively impact the industry growth. Aggressive promotions by the companies about latest trends are projected to increase awareness among customers.

Significant technological developments, urbanization and increase in population are the key driving factors for the prescription sunglass market. Increasing demand for these lens materials coupled with growing purchasing power in the developing countries is expected to positively impact volume sales.

The global Prescription Sunglasses market is valued at 4790 million US\$ in 2017 and will reach 6970 million US\$ by the end of 2025, growing at a CAGR of 4.8% during 2018-2025.
