The chemical industry comprises the companies that produce industrial chemicals. Central to the modern world economy, it converts raw materials (oil, natural gas, air, water, metals, and minerals) into more than 70,000 different products. Rubber Sheets has mechanical properties making it particularly appreciated in environments subject to heavy wear due to friction, or where it is constantly exposed to impact or direct contact with abrasive elements. NBR nitrile rubber sheeting is specially formulated to prevent oil attack, meaning its mechanical properties remain intact even in direct contact with oils and grease.
