Abstracts

Casing, sausage casing, or sausage skin is the material that encloses the filling of a sausage. Casings are divided into two categories, natural and artificial. Artificial casings, such as collagen, cellulose, plastic, and extruded casings, are relatively new to the field. Artificial casings are made of collagen, cellulose, or even plastic and may not be edible. Artificial casings from animal collagen can be edible, depending on the origin of the raw material.

Viscofan accounted for 14.21% global Sausage/Hotdog Casings market share in 2016. Other players accounted for 7.34%, 6.17%, including Viskase, Devro.

Global consumer market share are mainly distributed in Asia-Pacific. It has unshakable status in this field. Asia-Pacific takes the consumption market share of 46.36% in 2016, Europe followed by with 24.83% in 2016.

The market is not only influenced by the price, but also influenced by the product performance. The leading companies own the advantages on better performance, more abundant product's types, better technical and impeccable after-sales service.

Consequently, they take the majority of the market share of high-end market.

Looking to the future years, the slow down price trend in recent years will maintain. As competition intensifies, prices gap between different brands will go narrowing. Similarly, there will be fluctuation in gross margin.

Despite the presence of competition problems, due to the United States recovery trend is slightly, investors are still optimistic about this area; the future will still have more new investment enter the field.
