Abstracts

Sports bottle, as the name implies, is an appliance used to carry water in the outdoor sports. Sport bottle can be made of plastic, stainless steel, aluminum and others. Sport bottle is much more durable, convenient, safety and reliable.

The technical barriers of sport bottle are low, and this industry is centralized. Leading ten companies in the market occupies about 37.53% of the Revenue market share in 2016. The major manufacturers of sport bottle are Thermos, PMI, Lock&Lock, Tupperware, CamelBak, Zojirushi, Haers, SIGG and others.

In the past few years, as the main raw material price was relatively stable, with the addition of a sharp increase in production capacity, expected that the sport bottle raw material price will be stable in the short term. However, the improvement of energy, transportation costs, and employee wages, will play a significant role in promoting the cost of sport bottle.

As downstream demand grows and technical barriers become less, there will be a huge market space for sport bottle. To grab more market, the little companies have to expand the technology, capital investment and brand influence. To meet the challenge of new entrants and keep their leading stage, leading companies need to increase the technology innovation and speed up the product upgrading. In the future, sport bottle market will still be a market of fierce competition.

In order to adapt to the changing technical requirements, sport bottle manufacturers need to pay attention to the technical innovation. In future, new materials and health protecting will be the technology trends of sport bottle.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency.
