This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

A street sweeper or street cleaner may refer to a person's occupation, or a machine that cleans streets. A street sweeper cleans the streets, usually in an urban area. Street sweepers have been employed in cities since sanitation and waste removal became a priority. A street-sweeping person would use a broom and shovel to clean off litter, animal waste and filth that accumulated on streets. Later, water hoses were used to wash the streets.

Advanced street sweeper manufacturers are located in developed regions like North America and Europe, and most of their market also these regions due to the high urbanization level and high living level.

In China, the amount of people still lived in country is more than half of the total number of population. The potential market is large. The prospect of street sweeper in China is good in the next years.

There are many street sweeper manufacturers in China and most of them have a low production. It is predictable that there will be market integration in the future.

The global Street Sweeper market is valued at 2420 million US\$ in 2017 and will reach 3720 million US\$ by the end of 2025, growing at a CAGR of 5.5% during 2018-2025.
