Abstracts

A Table Linen is Linen used to cover a table. Some are mainly ornamental coverings, which may also help protect the table from scratches and stains. Other Table Linen is designed to be spread on a dining table before laying out tableware and food.

The technical barriers of Table Linen are relatively low, and the Table Linen market concentration degree is dispersed. The manufacturing bases scatter around the North America; the key companies in Table Linen market include IKEA, URQUILDLINEN, BBJ and others.

Also, the growing number of hotel and restaurants in 2014 has increased the demand of Table Linen. Therefore, the growing demand for Table Linen will be favorable for the growth of the Table Linen market.

As the demand increases rapidly for downstream industries, the demand for Table Linen will correspondingly increase. The increased consumption of Table Linen is expected to continue during the remaining years of the forecast period of 2016-2021.

Table Linen industry will usher in a stable growth space.

In the past few years, the raw material prices were relatively stable, and expected that the Table Linen raw material price will be stable in the short term. However, the improvement of energy, transportation costs, employee wages, and equipment depreciation will play a significant role in promoting the cost of Table Linen. Therefore, to some extent, the companies face the risk of profit decline.

There are companies adding new capacities and aims at the cost and quality leadership which shall improve profitability. As the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality. The competition in Table Linen market will become more intense.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Table Linen

3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Table Linen 3900 industry.
