Abstracts

Table and Kitchen Glassware is defined as containers or objects made from glass and mainly used for commercial use and residential use. It includes drinking ware, dinner ware and other useful items for practical as well as champignon, candle container.
First, for industry structure analysis, the Table and Kitchen Glassware industry is fragmented. A variety of manufacturers ranging from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 25.80% of the revenue market. Regionally, China is the biggest production area of valves, also the leader in the whole industry.
Second, the production of high voltage direct current cable increases from 2746.8 M Units in 2011 to 3131.5 M Units in 2016, with an average growth rate of 2.66%.
Third, China occupied 34.75% of the production market in 2015. It is followed by Europe and North America, which respectively have around 21.87% and 20.90% of the global total industry. Other countries have a small amount of production. Geographically, China was the largest consumption market in the world, which took about 27.21%of the global consumption volume in 2015. Europe shared 24.81% of global total.
Fourth, for price trend analysis, a key variable in the performance of Table and Kitchen Glassware producers is raw material costs, specifically the speed at which any increase can be passed through to customers.
Fifth, for forecast, the global Table and Kitchen Glassware revenue would keep increasing with annual growth rate with 2-4%. We tend to believe that this industry still has a bright future, considering the current demand of Table and Kitchen Glassware. As for product prices, the slow downward trend in recent years will continue in the next few years, as competition intensifies. Similarly, there will be fluctuations in gross margin.
Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019
