Abstracts

Global Thin client sales have dipped -7.29 percent in a year, to just 5.407 million units, according to QYR, which says 5.832 million units devices shipped in 2014. QYR also found three rays of light in the thin client market. Dell and HP dominated the thin client market, finishing with 24.04 % and 23.53% sales market share in 2015. The second was a turnaround for Ncomputing, which scored 12.8 percent shipments growth for 2015. The third piece of nice news is Chinese vendor Centern's 15 percent shipment growth on the back of "major financial project wins in China."
