Abstracts

This report studies the global Traffic Signs market status and forecast, categorizes the global Traffic Signs market size (value & volume) by key players, type, application, and region.

This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

Traffic signs or road signs are signs erected at the side of or above roads to give instructions or provide information to road users. The earliest signs were simple wooden or stone milestones. Later, signs with directional arms were introduced, for example, the fingerposts in the United Kingdom and their wooden counterparts in Saxony.

With traffic volumes increasing since the 1930s, many countries have adopted pictorial signs or otherwise simplified and standardized their signs to overcome language barriers, and enhance traffic safety. Such pictorial signs use symbols (often silhouettes) in place of words and are usually based on international protocols. Such signs were first developed in Europe, and have been adopted by most countries to varying degrees.

At regional level North America (Revenue market share about 29% in 2015) accounted for the largest market share in the year 2015 followed by Europe (Revenue market share about 36% in 2015) and Asia (Revenue market share about 19% in 2015). This is mainly due to intense government support and technological advancements resulting in broader acceptance of the devices.

Traffic Signs are mass products and in most of the cases represent a sub segment or portfolio of medical device manufacturers with very little scope for product differentiation. This makes the overall market highly competitive and price sensitive in nature.

The Traffic Signs industry major has three applications, such as Guide & Direction Signs, Warning Signs, Regulatory Signs and Others.

The global Traffic Signs market is valued at 850 million US\$ in 2017 and will reach 1160

million US\$ by the end of 2025, growing at a CAGR of 4.0% during 2018-2025.
