## Abstracts

The Trail Running Shoes Sales 2016 Market Research Report is a professional and in-depth study on the current state of the Trail Running Shoes market

The trail running shoes market was 2.37 Billion USD in 2015 and is expected to grow at a CAGR of 5.50% from 2017 to 2022.

Trail running shoes are footwear designed for off-road travel and include many design features not found on a road-specific model. Trail running shoes involve running or walking in an outdoor environment on a natural terrain, taking advantage of the geographical features offered by each region (usually mountains, deserts, forests...).

In 2015, the global trail running shoes consumption market is led by North America and Europe, while North America accounts for 24.91% and Europe accounts for 27.58% in 2015. At present, the major manufacturers of trail running shoes are concentrated in Brooks, Salomon, Asics, New Balance and Saucony. Brooks is the world leader, holding 7.43% sale market share in 2015.

The report provides a basic overview of the trail running shoes industry including definitions, classifications, applications and industry chain structure.

Development policies and plans are discussed as well as manufacturing processes and cost structures are also analyzed. This report also states import/export consumption, supply and demand figures, cost, price, revenue and gross margins.

The report then analyzes the trail running shoes market size (volume and value), and the sales segment market is also discussed by product type, applications and region.

The major Trail Running Shoes market (including Europe, North America, China, etc.) is analyzed, data including: market size, import and export, sale segment market by product type and applications. Then we forecast the 2017-2022 market size of Trail Running Shoes.

The report focuses on global major leading companies providing information such as company profiles, sales, sales revenue, market share and contact information.

Finally the marketing, feasibility of new investment projects are assessed and overall research conclusions offered.

With 233 tables and figures the report provides key statistics on the state of the industry and is a valuable source of guidance and direction for companies and individuals interested in the market.
