## Abstracts

This report studies the global Washer-Disinfectors market status and forecast, categorizes the global Washer-Disinfectors market size (value & volume) by key players, type, application, and region. This report focuses on the top players in North America, Europe, China, Japan, Southeast Asia India and Other regions (Middle East & Africa, Central & South America).

Washer-disinfectors (WDs) are defined by the Food and Drug Administration (FDA) as Class II medical devices intended for general medical purposes to clean, decontaminate, disinfect and dry surgical instruments, anesthesia equipment, hollowware and other medical devices.

The technical barriers of washer-disinfectors are not high, and the major players are Steelco SpA, Miele, Belimed, Getinge Infection Control, Steris, AT-OS, CISA, SciCan, Tuttnauer, Eschmann Equipment, Skytron, IC Medical GmbH, Ken A/S, and Smeg Instruments. These companies mainly concentrate in Europe and USA. Europe is the largest consumer, more than 44% of total consumption in 2015.

In the past few years, the price of washer-disinfectors has decreased and we expect the price will slightly lower. However, the improvement of energy, transportation costs, employee wages, and equipment depreciation will play a significant role in promoting the cost of washer-disinfectors.

As the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality. With the snatch for market share in emerging regions, the competition in washer-disinfectors industry will become more intense.

The global Washer-Disinfectors market is valued at 240 million US\$ in 2017 and will reach 320 million US\$ by the end of 2025, growing at a CAGR of 3.5% during 2018-2025.
