Abstracts

A webcam is a video camera that feeds or streams its image in real time to or through a computer to computer network. When 'captured' by the computer, the video stream may be saved, viewed or sent on to other networks via systems such as the internet, and email as an attachment. When sent to a remote location, the video stream may be saved, viewed or on sent there. Unlike an IP camera (which connects using Ethernet or Wi-Fi), a webcam is generally connected by a USB cable, or similar cable, or built into computer hardware, such as laptops.
In 2015, global Webcam total production reached 128679 K units. China and Japan were the major production regions, which accounted for 50% and 11% respectively.
In consumption market, the growth rate of global consumption is smooth relatively with the 169.0% of average growth rate. China and Europe are still the mainly consumption regions. For the developing country, China to grow at a fast pace annually and may become the largest region in the future in terms of webcam consumption.
Finally, we tend to believe that this industry is now close to mature, and the consumption increasing degree will show a smooth curve. On product prices, the slow downward trend in recent years will maintain in future too, as competition intensifies, prices gap between different brands will go on narrowing. Similarly, there will be fluctuation in gross margin.
Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Webcams 4900 market in 2020.
COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.
The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events
