## Abstracts

Zinc flake is zinc powder for zinc flake coating. It is a bright, highly reflective, visually attractive and fully leafing flake. It has excellent decorative properties, combined with the galvanic type of corrosion protection that is characteristic of zinc metal. Zinc flake is compatible with solvent-based paints as well as with organic powder coating systems. In consumption market, the global sales value decreased with the 4.24% average increasing rate. China is the mainly consumption region due to the bigger demand of downstream applications. This region occupied 28.68% of the global consumption of zinc flake in 2015.
