## Abstracts

This report studies the global Zirconia Ceramic Ball market status and forecast, categorizes the global Zirconia Ceramic Ball market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

This report studies zirconia ceramic ball mainly used for ceramic bearings and valves. The specifications demand of this kind of ball is much higher, as well as the price. In the market, there is another zirconia ceramic ball, which is commonly called zirconia beads, which is mainly used for grinding or milling; this kind of ball or bead is low cost with lower quantity demand, in this report this kind of ball is not counted.

The main reason why we don't count zirconia bead in this report is that the two kinds of ball are produced by different series of manufacturers, and the price varies; not suitable to be mixed.

Zirconia ceramic balls are now extensively used for the production of high speed and precision ceramic bearings and valves. In the coming years there is forecasted to be stable demand scale for zirconia ceramic ball worldwide, especially in emerging market such as China and India, which is expected to drive the industry development of zirconia ceramic ball.

Globally, the zirconia ceramic ball industry market is quite concentrated as the manufacturing technology of zirconia ceramic ball is complex and is related to a series of technology. Several enterprises, like Industrial Tectonics, Spheric Trafalgar and AKS are well-known for the technology status of their zirconia ceramic ball and related services. At the same time, USA, occupied 32% revenue market share in 2016, is remarkable in the global zirconia ceramic ball industry because of their market share and technology status.

The shipments volume of zirconia ceramic ball is related to the development of ceramic

bearings and valves market and global economy. As there will always be some uncertain in the global economy in the following years, the growth rate of zirconia ceramic ball industry may not keep that fast. But it is surely forecasted that the market of zirconia ceramic ball is promising.

The global Zirconia Ceramic Ball market is valued at 1 million US\$ in 2017 and will reach 1 million US\$ by the end of 2025, growing at a CAGR of 6.6% during 2018-2025.
