Abstracts

The lockers has long history in North America, and now are being used in many industries like recreation centers, health clubs, hospitals, office break rooms, schools, restaurants, day care facilities, pool areas, gyms, country clubs, fire and police departments, apartments, etc.

In 2016, the lockers sales was 5.4 million doors in North America, and it will reach 6.69 million doors in 2022; while the revenue of lockers was 258 million USD in 2016 and will be 306 million USD in 2022, with a CAGR of 3.6% between 2016 and 2022, driven by the demand from Entertainment/Fitness, Education/Libraries, Retail/Commercial and Express and Logistics etc.

In future, the demand from parcel lockers, express and logistics will drive the lockers market. For example, in Germany, DHL has 250,000 lockers and 20,000 parcel shops, and in France 60 million parcels are sent to pick-up points of lockers. The US is catching up quickly, with all the major delivery companies already having introduced limited trials, and progressed beyond, as have retailers such as Amazon now visible in most neighborhoods. Now UPS has committed to the technology and, as the Wall Street Journal recently reported, will increase their shop Access Points from a few thousand to 20,000 by the end of the year.

In North America, the lockers market is dominated by dozens of manufacturers, like Penco

Salsbury Industries, Lyon, LLC, Locker Man, Hollman, Hadrian Manufacturing Inc., Ideal Products, American Locker, American Specialties, Inc., Longhorn Lockers, ProZone, Scranton Products, List Industries, DeBourgh Mfg and Foreman in United States; the Anthony Steel Manufacturing, Perfix, Lincora and Shanahan in Canada; and in Mexico the top manufacturers are MAINDSTEEL, Grupo Promelsa and JM Romo etc.

Geographically, this report splits North America into three countries, %li%with sales (volume), revenue (value), market share and growth rate of Locker in these regions, from 2012 to 2022 (forecast), covering
