**ZEEFER Industry Distribution Index**

It is an indicator through aggregate weighted computation based on the three authority statistics of enterprise numbers, sales revenue and profit by region and corporate ownership, and in accordance with the regional distribution of leading enterprises inside the sector. Through horizontal comparison on the coal products mfg. industry development in different provinces, municipalities, and autonomous regions, the ZEEFER Industry Distribution Index is specially designed to truly reflect the conditions of regional distribution for the coal products mfg. industry, providing a quantitative, visual and reliable reference for relevant users to make decisions. The ZEEFER Industry Distribution Index adopts a hundred mark system. For a certain region, the higher the score, the higher the distribution concentration in this region and the industry position of the region shall be more important.

**Key Statistic Indicators Covered By This Report**
