Global Cardiac Marker Analyzer Market is projected to cross US\$ 4 Billion by the year 2024. Cardiac Marker Analyzer (Cardiac Reader Systems) offers high point of care testing results for the diagnosis of cardiac related diseases like myocardial infarction and others. Cardiac Marker Analyzer performs all cardiac monitoring tests such as Troponin, Myoglobin, CK-MB and D-Dimer tests, through immunochromatographic assays. Cardiac marker analyzer efficiency and accuracy can be increased with the help of dedicated software and system which offers extensive support to diagnostic procedures and built in LCD displays for the visualization of practices.

Cardiac Markers Analyzers usually measure the levels of enzymes and proteins released from heart muscle when it is damaged. Physicians use cardiac markers in two ways – to diagnose a cardiac event in a hospital emergency room or within the hospital or to evaluate a risk of a cardiovascular event occurring.

Some of the major Cardiac Marker Analyzers which are frequently used in the diagnosis of patient's cardiac conditions include i-STAT System, RAMP Reader, RAMP 200, QL Care Analyzer, Access 2 Immunoassay System, Meritas POC Analyzer, Alere Meterpro Analyzer, PATHFAST Analyzer, Stratus CS Analyzer, Cobas H 232 POC System, ichroma DUO Analyzer and DXpress Reader Analyzer.

Cardiac Marker Analyzers plays an important role in the prevention of the misdiagnoses of heart conditions. Increasing prevalence of heart related diseases across the globe and growing awareness among people about the cardiovascular diseases is expected to drive the demand of Cardiac Marker Analyzers for the diagnosis of cardiac diseases.

Renub Research report titled “Cardiac Marker Analyzer Market & Product Analysis, By Analyzers (Alere Meterpro Analyzer, RAMP 200, RAMP Reader, The i-STAT System, cobas h 232 POC System, Stratus CS Analyzer, Access 2 Immunoassay System, ichroma DUO Analyzer, DXpress Reader Analyzer, PATHFAST Analyzer, Meritas POC Analyzer, QL Care Analyzer), Companies (Abbott Laboratories, Getein Biotechnology, Siemens Healthcare, Beckman-Coulter, Alere, Response Biomedical, Roche Diagnostics, Boditech, LifeSign, LSI Medience Corporation, Trinity Biotech, CardioGenics)” provides a complete analysis of Cardiac Marker Analyzer Products.
