Abstracts

Dental Equipments Market is projected to exceed US\$ 11 Billion, experiencing a significant growth from 2018 to 2024. Dental Surgical equipments consist of tools or systems which are used for the diagnosis and treatment of dental infection and other oral diseases.

The cases of dental diseases coupled with increasing demand for minimal persistent painless surgeries are the major factors driving the dental equipments market growth. Rapidly growing geriatric population, who more often undergo dental treatment such as implants and periodontal surgeries than those of younger age and increasing demand for cosmetic dentistry further boosts the demand for dental industry over the forecast period.

By Segment – Radiology Controls the Dental Equipments Market

On segment basis, Dental radiology equipment accounted for highest share of the global dental equipment market in 2017. While with the rising implementation of CAD/CAM system in Dentistry, this segment is expected to grow at a significant rate during the forecast period. Further, the report also covers the market of Dental Lasers, Dental Chairs, Dental Curing Lights, Dental Handpieces, Dental Scaling units and Instruments Delivery system. The markets for above mentioned equipments are positively influenced by factors like rising oral diseases, growing aging population and increasing dental clinics and diagnostics centre.

By Region – North America leads the Dental Equipment Market

Geographically, North America holds the largest market share of the dental equipment. Europe and Asia-Pacific dental equipment market is expected to grow at a faster rate over the forecast period.

By End User – Hospitals drives Dental Equipments Market

In terms of End user, Hospitals hold the maximum share of the dental equipment market. While Dental Clinics is gaining its expectance in the community; it is expected to grow rapidly during the forecast period.
