Abstracts

France is one of the largest furniture markets in Europe. The home furnishings market in France has been growing year on year till 2017. But in 2018 France furniture market has declined slightly due to the decline in construction, housing and real estate market. These factors affected the France furniture industry. However despite all these issue the future of furniture market in France is expected to remain positive. Kitchen Furniture, Furnishing Furniture and Upholstered Furniture all these 3 segments expected to play a key role in France Home Furnishings market. France Furniture Market is expected to be more than USD 12.5 Billion by 2026.

Chained furniture retailers still dominate the home furnishings industry of France. Companies like IKEA, Conforama, Nobilia, Roche Bobois are some of the prominent names of home furnishings industry which control chains of stores that offer the complete range of home furnishings under one roof. On the contrary although Internet retailing is still a small segment compared to chain stores. But it is rising rapidly and expects to have a good market share in France furniture industry. Rising smartphone numbers, 4G penetration, millennial preferring online viewing compared to store visits, virtual reality showcase of furniture products are some factors driving the France online furniture market.
