Abstracts

India was the primary country to enter the worldwide cashew trade. Cashew is a vital cash crop and a highly valued nutrient in Indian agriculture. Cashew provides an essential source of income and food security for small holder producers and low-income groups. However, the Indian cashew industry has a vast untapped potential to support the subsistence of cashew farmers, and provide various employment opportunities and improve returns through global trade. As per this research report, India Cashew Market Size was US\$ 807.41 Million in 2020.

In recent years, the cashew market has witnessed a rapid shift in the consumption pattern across India, primarily due to flavored assorted cashew products occupying an increased share in the retail market space. With rising health-consciousness, consumers prefer healthy snacks, due to which the demand for flavored cashews is growing in India. Moreover, the high content of copper in cashews helps RBC formation and strengthens the bones, muscles, tissues, and nerves to improve overall health. The cashew market in India is expected to grow by the forecast period. India Cashew Market is estimated to reach US\$ 1,136.31 Million by 2027.

Cashew Export Promotion Council of India (CEPCI)

In the country, CEPCI has urged the Union government to allocate sufficient funds and put forward several schemes to boost the production of cashews. This initiative is required to drive the cashew market.

CEPCI Issue or renew RCM (Registration Cum Membership Certificates) to its members. The certificate helps for export-related works and availing duty benefits under foreign trade policy in 2021.

India is the major cashew consuming country in the Asia-Pacific, positioned as the largest producer of raw cashew nut (RCN) globally. The major cashew producing Indian states are Andhra Pradesh, Maharashtra, Orissa, Kerala, Tamil Nadu and Karnataka. Maharashtra is the largest cashew producing state. It is well-drained lateritic and sandy soils along the coastal belt with undulating topography and climatic conditions like modest temperature, high humidity, and high rainfall in the Konkan region Maharashtra is recognised as the most beneficial for cashew plantation. India Cashew Industry will grow with a CAGR of 5.00% during 2020-2027.

Cashew is one of India's primary foreign exchange-earners and the second-biggest dollar earner. India imports and exports cashew products in the international market, such as the UAE, Netherlands, Japan, Saudi Arabia, Spain, Germany, and the United States. In addition to domestic production, India also imports raw cashew from other countries like Vietnam, Tanzania, Netherlands, Kuwait, Kenya etc., besides many other small countries.

In the COVID-19 pandemic, cashew consumption and supply has taken a massive hit, the future of the cashew industry hangs in the balance. Export volume of cashew has hit an all-time low, and domestic sales have fallen due to the absence of pilgrims, large-scale festivals and events in India. Major Key players covered in Indian cashew markets are Wonderland Foods, Kalbavi Cashews, Britannia Industries Limited and Haldirams. In 2021, Haldirams and Future life bring a nutritional product range to India.
