Influenza Vaccines Market Analysis

The Influenza vaccines market represent an attractive market characterize by sturdy growth prospects. Increasing awareness, growing vaccination coverage in the emerging countries, rising government support for immunization against Seasonal Influenza and increased focus on the production of treatments for vulnerable populations by introducing new vaccines and vaccines with a better route of administration are the main drivers to galvanized Influenza vaccines market.

Seasonal Influenza vaccines market has Billions US\$ market in 2013. Seasonal Influenza vaccines market is expected to grow with double digit percentage from 2013 to 2019. On the other hand, H1N1 Influenza vaccines market has seen tremendous growth during 2009 and 2010 primarily driven by the global spread of H1N1 Influenza virus. However, strong demand of Influenza vaccines contracted in 2011 by more than 50% due to waning threat of swine flu epidemic.

United States remains the largest market for Seasonal Influenza vaccines. Japan and emerging countries like China, India and Brazil is likely to drive Influenza vaccines markets in the next 5 to 6 years. Netherlands and United Kingdom have achieved greater vaccinations coverage.

In the major Seasonal Influenza vaccines sales segment, Fluzone (Sanofi Pasteur) has the highest sales figures and likely to maintain leadership position in the Seasonal Influenza vaccines market.
