Abstracts

A liquid biopsy is an emerging tool for the diagnosis of cancer disease nowadays. The liquid biopsy involves collecting samples and analysing tumours in the blood to diagnose cancer disease in the human body. Liquid biopsy assists medical practitioners as a source of genomic and proteomic knowledge in cancer patients by early detection of circulating tumour cells, DNA and extracellular vesicles. Currently, liquid biopsy plays a critical role in accelerating and implementing accurate oncology in clinical settings by leading to an improved understanding of tumour heterogeneity and allowing for dynamic control of reactions to care and variations in genomics. According to Renub Research analysis, Global Liquid Biopsy Market is expected to be US\$ 3.1 Billion by 2026.

The major growth drivers of liquid biopsies are that while extracting the tissue sample from the human body is much pain-free, it substitutes the pain associated with the procedure. Besides, liquid biopsy is very accurate in detecting tumour cells in the blood of cancer patients. Due to the low sensitivity of liquid biopsy, it acts as the restraint factor in the market's growth.

The key players play an essential role in the liquid biopsy market's growth by launching innovative products. In June 2020, NeoGenomics Inc. launched three liquid biopsy tests for non-small cell lung cancer, solid tumour types, and specific breast cancer. The COVID-19 effect in the liquid biopsy market has been harsh because all patients are taking therapies to treat cancer; since they have a weak immune system, and they are less prone to fight with coronavirus diseases.

Renub Research report titled "Liquid Biopsy Market Global Forecast by Cancer (Breast Cancer, Lung Cancer, Prostate Cancer, Colorectal Cancer & Others), Product (Kits &

Consumables, Instruments and Services), Sample (Plasma/Serum, Urine & Others), Circulating Biomarkers (Circulating Tumor DNA (ctDNA), Circulating Tumor Cells (CTCs) & Exosomes), Clinical Application (Monitoring, Theranostics, Prognosis & Screening), Regions (Europe, North America, Latin America, Asia-Pacific and Middle East/Africa), Companies (Roche Diagnostics, Thermo Fisher Scientific Inc., Biocept Inc., Bio-Rad Laboratories Inc., Genomic Health, Biocartis, Myriad Genetics Inc., Qiagen, NeoGenomics Laboratories)” provides a detailed analysis of Global Liquid Biopsy Industry.

By Cancer

1. Lung Cancer
2. Breast Cancer
3. Colorectal Cancer
4. Prostate Cancer
5. Others

By Product

1. Kits & Consumables
2. Instruments
3. Services

By Circulating Biomarkers

1. Circulating Tumor Cells (CTCs)
2. Circulating Tumor DNA (ctDNA)
3. Extracellular Vesicles
4. Others

By Sample

1. Plasma/Serum
2. Urine
3. Others

By Clinical Application

1. Monitoring

2. Prognosis
3. Theranostics
4. Screening

By Regions

1. North America
2. Europe
3. Asia-Pacific
4. Latin America
5. Middle East/Africa

All the 9 Companies Studied in the Report have been Studied from three Points

Company Overview

Recent Development

Financial Insight

By Companies

1. Thermo Fisher Scientific Inc.
2. Roche Diagnostics
3. Bio-Rad Laboratories Inc.
4. Biocept Inc.
5. Biocartis
6. Myriad Genetics, Inc.
7. Genomic Health
8. NeoGenomics Laboratories
9. Qiagen

I would like to order

Product name: Liquid Biopsy Market Global Forecast by Cancer, Product, Sample, Circulating Biomarkers, Regions, Company Analysis

Product link: <https://marketpublishers.com/r/LF14DEBDFBAEN.html>

Price: US\$ 2,190.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/LF14DEBDFBAEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
